## Open S P A C E

George Orwell's Open Space and Recreation plan that Sarah refuses to disseminate. Fixcarver is happy to provide Carver citizens with a copy.

Below is a jpeg of a pie chart similar to the one that ran in the Carver Reporter on Friday. It paints a radically different picture than the chart that ran in the paper. Our chart shows the true percentage of people who think town bylaws should be changed to Sarahs liking. Point of fact she stated that the percent is 63.98 when it's actually 10.16% Figures don't lie but liars figure. Expect to see more of this.

### Q.#4: Should town bylaws be drafted to encourage more open space in newer subdivisions and commercial developments?

- a. Did Not Response 83.77
- b. Yes 10.16%
- c. NO 3.16%
- d. Unsure 2.55%
- e. Blank .36%
