## **FixCarver About us**

"Concerned Carver Citizens" was founded by ordinary tax paying citizens who are concerned about the path and ethics of officials who are leading the town. This web site is a watchdog of all the elected and appointed Carver officials. Our mission is to observe that town government follow all the State Laws exclusive of any financial interest and report violators to the proper authority . We want to put violators on report that there is an "Eye in the Sky" scrutinizing their every move. Please check back frequently for updates and feel free to send us your feedback.

Sincerely,  
Concerned Carver Citizens
