## Negative

I'll give you negative. Try lying to the public. Try protecting your buddies who lie and take 6 figure incomes to do it. Try handing your buddies large sums of money in backroom deals that are unsigned. Those who protect liars are complicit in their corruption. This is our town and we won't allow it to be sold to the biggest cheater. Positive, try \$250,000 in interest savings for the Cole property. Try \$130,000 in new tax revenue announced Tuesday night as a direct result of the efforts of prominent Fixcarver.com citizen activists. Try keeping an elderly citizen in her own home and at the same time collecting the taxes that your side failed to collect for years. Try being instrumental in obtaining a regular donation of bread for our food shelters. Now what has your side done except attack us for exposing your shameful corruption and exposing your backroom deals to the sunlight.
