## Pro Override Donations Questioned

Financial records obtained by Fixcarver.com indicate that supporters of the override took a \$300.00 contribution from Daedalus, the Owner's Project Manager from the very project that was the subject of the override election. Talk about conflict of interest! An excerpt from their website is quoted below.

Daedalus also lists Carver as a client. We are left to wonder the identity of an \$80.00 anonymous contribution. Since this is over \$50.00 the filing form states "only itemize those over \$50.00." Apparently posters on fixcarver.com are not the only people who wish to remain anonymous.

### Recent News From
