School Committee Seeks to Overturn Election Cheating Continues

Attached please find a transcript of the 10/19 school committee meeting. These folks claim the right to steal our votes as well as cheat using full time paid employees like the Superintendent to bring this back up Not to mention using the connect ed system as their own pac. Don't forget their acceptance of a \$300 donation from the owners project manager for this project. We are committed to fight this effort on every level. I urge you to personally call all the selectmen and school committee members. Don't email call personally and tell them in the strongest language that you will not tolerate this kind of behavior.
