Soldiers Family Needs Our Help

The son of a longtime Carver High School teacher has been seriously wounded in Afghanistan. Fortunately he is making progress at Walter Reed Hospital in Maryland. Doctors say the best medicine is to have family with him.

His mother, a 17 year Carver teacher, has exhausted her paid leave and the family needs our help. FixCarver wishes to urge the citizens of Carver to step up and help. Send a Christmas card to her and include a donation. We don't have time to set up bank accounts etc. Please do this today. This soldiers and his family have given enough. It's time for us to step up and support them.
