## **It's Time to Make Do with less**

“It has become clear to me that most municipalities are organized in such a way to facilitate the expenditure of funds. For example, most municipalities have numerous elected committees, officers, authorities, commissions, etc., all with independent authority, resources and staffing. The fiscal realities of the times require streamlining, consolidation and reduction of redundancy. We are not organized in such a way so as to reduce expenditure, get by with less, etc. I believe that Carver needs to start looking at its organizational structure to determine if the time has come to consider further centralization in order to best utilize our increasingly meager resources.”

*Rick LaFond 5  
Town Report 2009  
Before the “Golden Substation”*

Fixcarver and Rick LaFond finally agree on something. The Golden Substation does not change our bloated fiscal reality. The time is now to Fixcarver. We have a not a “Golden Substation” but as Rod Forrester stated on WATD News we have a “Golden Opportunity” to rebuild our schools without a tax increase. Once this train leaves the station it's gone forever. Shame on us if we squander our windfall on short term thinking.
